

ThermPix® Captures What is Invisible

- **Precise Visualization**

ThermPix® provides accurate images of heat patterns and variations within the body.

- **Non-Invasive**

The ThermPix® does not require patient connect or any invasive procedure.

- **Portable**

The point of care thermography can be used in any health setting and images can be accessed on multiple devices.

The ThermPix® Thermovisual Device is FDA 510(k) cleared to record heat patterns and variations and capture those images to share with patients and other clinicians.

IMAGING. REIMAGINED.

Imaging with the ThermPix® System reveals temperature differences and displays the patterns graphically as an adjunct diagnostic imaging modality to duplex ultrasound.

WiFi Enabled to Send Images to Cloud Storage

8 Megapixel Camera

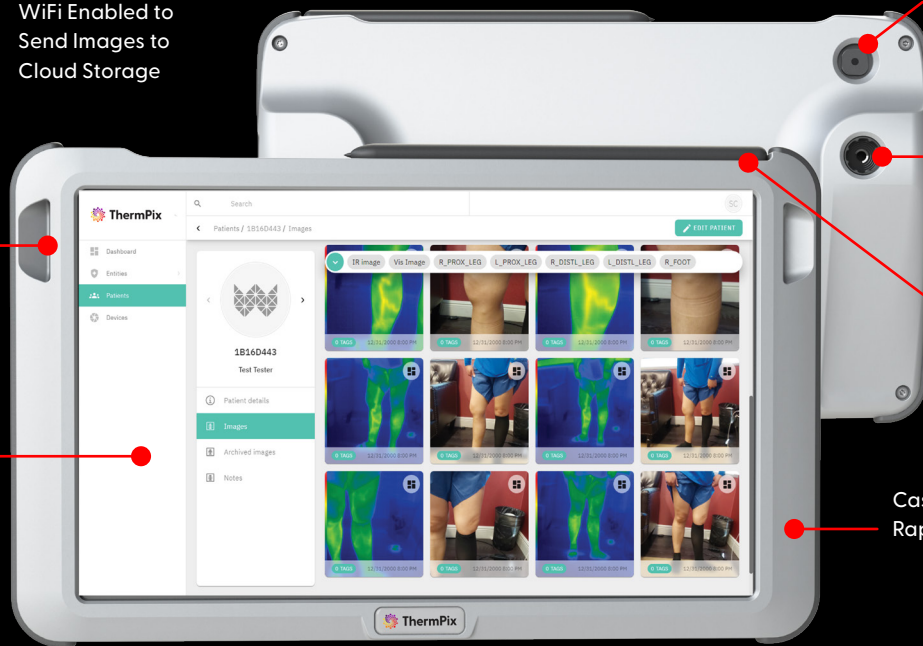

High Resolution Thermal Imaging Device

Built-In Stylus for Quick & Efficient Input

Case Designed for Rapid Sterile Cleaning

Ergonomic Design

10.4" Touch Screen

● Accurate Thermal Images (within one degree)

● HIPAA-Compliant Cloud Storage

● Access Images on Multiple Devices

DESCRIPTION

ThermPix® Thermovision System Device with 1-Year Software Bundle	TPIX-0010	Single Unit
ThermPix® Thermovision Medical Grade Charger/Included	TPIX-0011	Single Unit
ThermPix® Thermovision Case/Included	TPIX-0012	Single Unit
ThermPix® Monitor Display Stand/Included	TPIX-0013	Single Unit

FDA 510(K) INDICATIONS FOR USE

The ThermPix® Thermovision Camera is intended to view, measure, and record heat patterns and variations. It is intended for use as adjunctive diagnostic imaging for thermally significant indications stemming from heat emitted from the human body. The significance of these thermal patterns and variations is determined by professional investigation. This device is intended for use by qualified technical personnel. Clinical judgement and experience are required to review and interpret the information transmitted.

The ThermPix® Thermovision Camera is only for use in addition to other diagnostic medical devices. It does not provide any absolute measurement of temperature and should not be used for sole screening or diagnosis for any disease or condition. The system is not intended to be used as a thermometry device.

CAUTION: Federal (USA) law restricts this device to sale by or on the order of a physician. | ThermPix® is a registered trademark of USATherm, LLC
